

推特博主@dog_rates（推特名称 WeRateDogs）是一个非常幽默的博主，以对狗狗们的有趣评分而著名，在社交网络上产生了不少广泛传播的模因（例如，"They're good dogs Brent."）

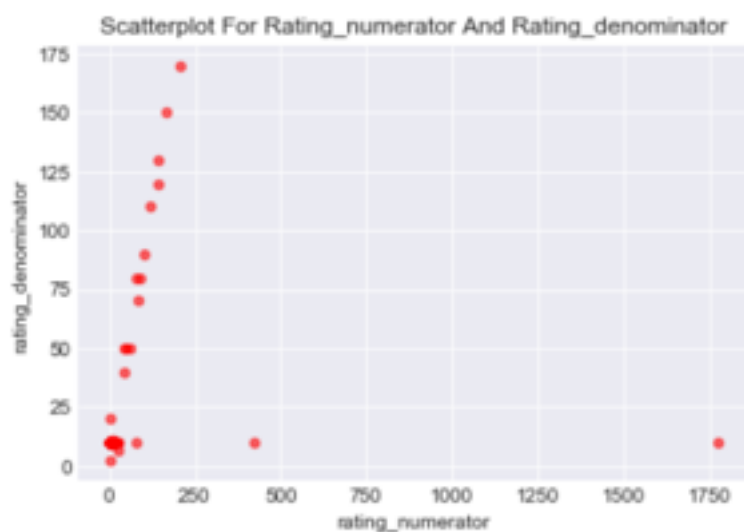

这次我们抓取了一些数据(截止止到2017年年4月月1日日), 来简单看一下这部分的数据。

A bar chart titled "Dogs Stage" showing the count of dogs at different stages. The y-axis is labeled "Count" and ranges from 0 to 200 in increments of 25. The x-axis is labeled "Stage" and has five categories: puppy, doggo, puppo, multiple, and toddler. The bars are red. The counts are approximately: puppy (210), doggo (70), puppo (25), multiple (15), and toddler (10).

Stage	Count
puppy	210
doggo	70
puppo	25
multiple	15
toddler	10

THE DOGTONARY	
Cogger /'dʒɒɡ/ noun	<p>"To tell. But I can't get this puppy." "You mean puppy could tell me puppy's name, it'll never happen!"</p> <p>doggie /'dɒɡ/ noun</p> <ol style="list-style-type: none"> 1. A transitional phase between puppy and coggie. Easily understood as the dog equivalent of a teenage. 2. Used with a mischievous or playful puppy and doggie tendencies. <p>"My puppy is still learning what it is to be a trustworthy coggie." "I would hope that puppy is trustworthy."</p> <p>dog /'dɒɡ/ noun</p> <ol style="list-style-type: none"> 1. An extremely intelligent but socially inept creature that is the most sophisticated of all animals, usually not noticeable enough that it attracts the attention of humans. Can last between three decades and four decades. <p>"My doggie tells I'dk it's like the other dogs." "Get a load of this dog I captured."</p>
Coggie /'dʒɒɡ/ noun	<p>doggie /'dɒɡ/ noun</p> <ol style="list-style-type: none"> 1. The name of a dog. Usually found replaces the dog may be the location of the name may last at where the dog's interest lies. <p>"This is a beautiful name." "It's really trying to keep my neighbor's dog's name for six years."</p> <p>dog /'dɒɡ/ noun</p> <ol style="list-style-type: none"> 1. Any dog really. However, this label is commonly given to dogs with seemingly no real fur. Casual manner of the most dog will certainly not the dog this genre is name. 2. "Dog. The term holds no whether the dog is still on thinking, or if it has been shut off." <p>"Check out that majestic dog!" "The hood on my dog has gotten so out of control but I don't see anybody excepting any more dogs."</p>

正如我们之前从推特图片中看到的，WeRateDogs为狗狗评分，大大多数没有按照正常的标准来， 大大部分的分母都高于分子。rating_denominator最集中的部分在于10的位置， 与我们从推特图片片中所观察到的一致。

并且有一个狗狗的评分非常大，在最右下角，达到1776/10的评分

通过URL发现，这条推特是在2016年的7月4日发的，而而1776 年7月4日是美国的独立日。 所以这其实是一个会心一笑的小幽默。

而WeRateDogs的社交媒体影响力如何呢？

通过这张图发现，喜欢数(favorite_count)和转发数(retweet_count)都很高，喜欢数(favorite_count)中的大多集中在0 到 40000 这个区间， 而而转发数 (retweet_count)中的大多集中在 0到 20000 这个区间， 并且很明显的可以看出，喜欢数与转发数成正比，人们点赞最多的推文，往往也会是转发量最多。
